Agenda

1. What’s this Webinar about?
2. CSM Tips&Tricks Demo
3. Q&A
What’s this Webinar about?

- To understand the most important modeling concepts and how to use them efficiently
- To make your modeling life easier and enjoyable
- To spend your time on creating valuable content instead of doing auxiliary tasks
Tool for Systems Modeling

• MBSE environment for system architects, system analysts, developers, quality engineers, etc.

• One of the most popular UML / SysML tools in the market

• Widely regarded as the most standard-compliant tool

• Designed for customization to meet customer needs

Sample used in this Webinar

- Very basic Automotive MBSE sample
- Simplified to focus on the use of the Tool instead of SysML and modeling Methodology
Let’s get Smarter!
The Truth is in the Models

Thank You!
